

DIESEL MAX DD SAE 40

Two-cycle diesel engines oil used recommended for off-highway vehicles , ships and stationary applications that require oil with a CF-2, CD-II API specification. It can also be used in four-cycle engines that require oil with CF or CD API specifications.

Meet specifications: API CF-2, CD-II. Detroit Diesel 7SE270.

Benefits:

- High thermal stability and oxidation resistance.
- Maintains oil pressure with large loads; low ash level; reduces deposits formation in the lining; minimizes wear and tear risk on the valve seats.
- Provides excellent engine cleanliness level and greater fuel efficiency.

DIESEL MAX DD	SAE 40
API	API CF-2, CD-II
API Gravity	28
Flash Point C°	220
Viscosity, cSt @100 C°	14.6
Viscosity, cSt @40 C°	141
Viscosity Index	95
Pour Point C°	-12
